IMAGERY

OLIVER'S IS PLEASED TO ANNOUNCE IMAGERY ESTATE WINERY AS THE WINERY OF THE MONTH FOR JANUARY.

Imagery's spirit can be captured in three little words - Broaden Your Palate.

Imagery has always been about pushing the boundaries of the status quo and winemaking tradition. Joe Benziger founded Imagery in the early 1980's to follow his curiosity (and great taste), crafting wines that didn't fit into any conventional mold.

Growing up, Joe's middle daughter, Jamie was surrounded by her dad's love of lesser known varietals. Working alongside Joe, as a young winemaker Jamie absorbed his spirit of adventure and some of his boundless energy. Together, they've created a new collection of Imagery wines, blending the spirit of their Sonoma estate with today's most popular varietals. Each of Imagery's new California tier of wines takes a traditional varietal and adds a little twist - something unexpected, something out of the ordinary, something very Imagery.

For this new collection of wines they've chosen a striking visual that ties back to their artistic roots. The iconic drip conjures images of both wine and paint, each interpretation representative of the creativity and passion in the bottle. Pick up a bottle of Imagery wine today and experience the art and passion in each bottle for yourself.
